

The Perfect PV Quotation in 20 minutes

- ⊙ Professional offer with minimal costs
- ⊙ Automatic system visualization
- ⊙ Individual components and prices
- ⊙ Profitability analysis in just a few clicks

The **Eternity Solar Expert** software allows you to effortlessly create a professional and convincing offer that includes a profitability analysis.

Quick

Efficiency is our top priority. Through lean data entry processes and intuitive operations, quotations can be generated in just a few entries.

Precise

The diverse components library and the elaborated system layout enable a precise simulation of the system. The profitability calculation takes into account various factors such as local electricity tariffs and individual consumption profiles.

End-customer oriented

Thanks to its appropriate and easily understandable design, Eternity Solar Expert will reliably convince your clients. Eternity Solar Expert makes it possible to professionally consult your clients directly on site.

Multifunctional

Eternity Solar Expert can be extended according to your needs with various additional features and can be linked to your own systems. Additional functions include the connection to the Eternity Solar Calculator, Expert Heat and Expert E-mobility as well as the solution for creating administrative documents.
